Department of Biology, Hunan Normal University, China.

The present paper deals with two new species of the genus *Coelotes* from China. They are *Coelotes huangsangensis* sp. nov. and *C. ningmingensis*. All type specimens are deposited at Hunan Normal University. Measurements are in millimeters. Scale lines equal to 0.5 millimeters.

A713 Key to the Orders of Arachnida.

Joo Pil Kim
Dongguk University, The Arachnological Institute of Korea

In present of 1997, 10 Orders of Arachnida are known on the earth but 3 Orders (Pseudoscorpiones, Opiliones, Acari) are in Korea. The author would give a account of taxonomic and pictorial keys to put orders in order and understand them easily.
