

A722 New Records of Thecate Hydroids from Anmyŏndo, Chejudo and Kŏjedo, Korea

Jung Hee Park
Division of Life Science, The University of Suwon

Of which the identified hydroid species from Anmyŏndo, Chejudo and Kŏjedo, *Laomedea tottoni* Leloup, 1935 in Campanulariidae; *Sertularella sagamina* Stechow, 1921; *Sertularella mirabilis* Jäderholm, 1896; *Sertularella polyzonias* (Linnaeus, 1758); *Symplectoscyphus turgidus* (Trask, 1857) in Sertulariidae and *Aglaophenia pluma* (Linnaeus, 1758) in Plumulariidae were turned out to be new to the Korean fauna. The most of these were collected with fishing nets from 30–70m in depth.
