

**Problems and Progress in The Total Synthesis of
Biologically Active Natural Products**

Deukjoon Kim

*College of Pharmacy, Seoul National University
Sam 56-1, Shillim-Dong, Kwanak-Gu, Seoul 151-742, Korea*

Our recent effort in the area of total synthesis of biologically active and/or structurally interesting natural products, such as (+)-brefeldin A,¹ (-)-fumagillol,² and (±)-tomesol will be presented.
