

**Photometric and Spectroscopic Observations of
Ten Algol-type Interacting Binary Systems**

Jin Hyung Kim¹, Tae Seog Yoon¹, Kang-Min Kim²

¹*Dept. of Astronomy & Atmospheric Sciences, Kyungpook National University,*

²*Bohyunsan Optical Astronomy Observatory, Korea Astronomy Observatory,*

Some results from the photometric and spectroscopic observations for ten Algol-type interacting binary systems of S Cnc, SW Cyg, RR Dra, TW Dra, GU Her, TU Her, Y Leo, IQ Per, RY Per, and TX UMa, which were performed at the Sobaeksan Optical Astronomy Observatory and Bohyunsan Optical Astronomy Observatory from February 2001 to February 2002 will be given.
