

**1-12. Taxonomic Revision of the *Tabanus immanis* Species Group
(Diptera: Tabanidae) from Korea**

Sang Jae Suh*, Kwang Shik Choi¹ and Yong Jung Kwon¹

Dept. of Horticulture, Sangju Nat. University

¹*Dept. of Agricultural Biology, Kyungpook Nat. University*

Horseflies of the *Tabanus immanis* species group from Korea are revised taxonomically. A total of six species are arranged herein. Among them, *Tabanus vibex* sp. nov. is new to science, and *Tabanus toshiokai* is newly recorded from Korean fauna. Keys, annotated check lists of domestic records, and collection data for each species are provided.
