Well – Being & Beauty

KANG, hak-hee

amorepacific

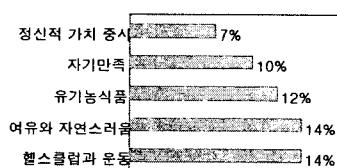

Well-being의 개념 · 건강하고 행복하게 살자

Well + Being

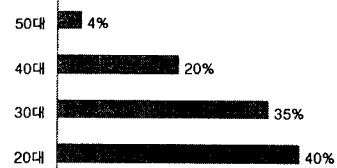

(안락한/건강한) (삶)

■ 경제력으로 단순히 잘 먹고 잘 사는 인생을 뜻하는 것이 아닌, 정신적으로 풍요롭고 육체적으로 건전한 문화적인 삶으로 이해

• 웰빙족과 관련이 있는 단어

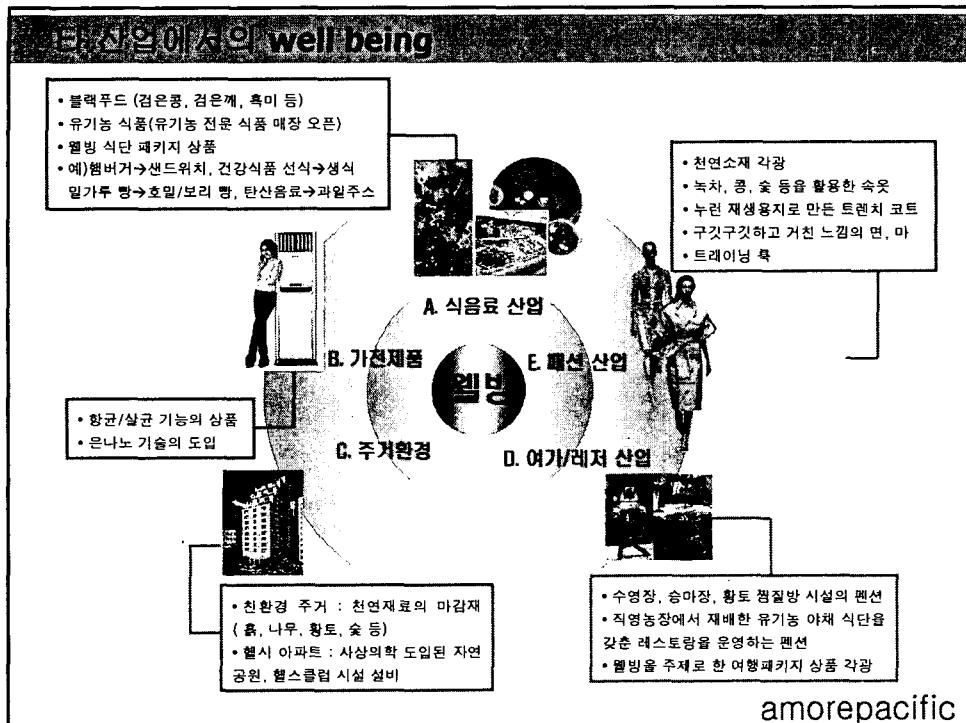

• 연령대별 웰빙을 받아들이는 분포

출처 : 동아일보 험스팀(2004/01/12일자)

Studies for slimming

The diagram shows a cross-section of skin layers. On the left, a circular area represents cellulite with labels: 1. Lipid accumulation, 2. AC hyperplasia, 3. TG (Thermal Gel), 4. Toxic waste, 5. Edema, 6. Herniation, and 7. Alterd dermis [proteoglycan]. On the right, a vertical column represents slimming studies with labels: 8. Hill & valley (orange-peel). Korean text on the right side reads "진피증" (Cellulite) and "피하지방증" (Fat reduction).

주요 상품 동향

- 시세이도 바디크리에이터 : 지방분해, 연소 / 카페인, 향기
- 비오엠 촉: 신호전달지방분해/코코아 베타엔들핀, 카페인
- CD 스벨트: 지방분해 / 카페인, 애스풀로스.
- CD 빅키니: 지방축적억제, 향기효과.
- 로레알 (2004): 지방분해, 지방축적억제 / 카페인, glucose축적억제로 지방축적 억제.
- 에스티로더: 지방분해, 연소, 지방축적억제, 물라겐생성촉진 / 카페인,forskolin,카르니틴,CLA
- 파프왕 : 지방분해, 연소, 지방축적억제, / 데아닌, 카페인, 카르니틴, 식물추출물, 에센셜향

2. vitamins in skin-biology

9 hydrosoluble vitamins :

- B group (B1, B2, B3 (=PP), B 5, B6, B12)
- Folic acid
- C, H
- very short life : quickly eliminated by the organism
⇒ need for constant supply

4 liposoluble vitamins :

- A, D, E, K and essential fatty acid F
- can be stocked in the organism
⇒ reserve allowing regular diffusion

amorepacific

Vitamins

	<ul style="list-style-type: none"> -deep penetrating moisturizer -stimulates cells proliferation/keratinisation & anti-inflammatory -deposition and penetration on damaged hair → natural source : yeast, soya, milk, fruits, berries, apricot, sweet almond
	<ul style="list-style-type: none"> -Anti-seborrheic, normalize skin pH -Stimulating (co-enzyme in skin cell metabolism -Play a role in the production of keratin → natural source : yeast, milk, fruits (banana, lemon, sweet orange, sweet almond, berries), soya, wheat
	<ul style="list-style-type: none"> -energy for cellular metabolism -Protective and nutritive (anti-pellagra) -Anti-inflammatory → natural source : yeast, wheat bran, dry fruits, soya, apricot, sweet orange, peach, sweet almond
	<ul style="list-style-type: none"> -Anti-infectious = stimulates immune defense system -Natural anti-oxidant : free radicals scavenger, helps Vit. E to regenerate -stimulates collagen synthesis, improves healing. Reduces melanogenesis → natural source : apple, banana, lemon, orange, kiwi, passion fruit, papaw

amorepacific

vitamins

	<ul style="list-style-type: none"> -Decreases sebum production, prevent hair loss with D-panthenol -Reported to have an effect on alopecia -Most evidence so far has been obtained with oral therapy → natural source : yeast, eggs, almonds, nuts, ginseng
	<ul style="list-style-type: none"> -Stimulates mitotic activity and cells proliferation / thickens the epidermis -stimulates collagen synthesis -Regulates keratinization, Increases skin enzymatic activity → natural source : milk, eggs, carrot, tomato, apricot, avocado, mango, peach
	<ul style="list-style-type: none"> -Natural anti-oxidant, scavenges free radicals -Anti-inflammatory : reduces erythema, helps in healing -Stimulates blood micro-circulation → natural source : wheat germ, corn, soy bean, banana, kiwi
	<ul style="list-style-type: none"> -Essential to preserve barrier function of cell membranes -Reduces TEWL (Trans Epidermal Water Loss) → prevents skin dryness → natural source : borage, evening primrose oil, soy bean, wheat germ, rye, sunflower,

amorepacific

3. polyphenols

Polyphenols are a group of vegetable chemical substances, characterized by the presence of more than one phenolic group. Their phenolic reactions produce gelatines, alkaloids and other proteins. The polyphenols are responsible for the coloring of some plants

	정 의	생리활성	유래
Tannin	탄닌은 flavan-3ol 의 중합체로서 pro-thocyanidin 이라고도 함	신체방어작용 물질 항산화 물질	옻나무, 참나무과, 콩과, 꼭두서니과에 많으며 주로 미숙과 실, 말아종자, 균충이나 세균이 침입한 조직에 축적한다
Flavonoids	2개의 방향족환과 3개의 탄소로 이루어진 탄소 15개로 된 일련의 C ₆ -C ₃ -C ₆ 화합물	항암작용 항산화 작용 항 바이러스 효과 항염효과 호르몬 작용	콩과 식물, 녹차 메밀, 강글류, 양파에 많으며 대부분의 식물에 존재
Lignin	두 분자의 C ₆ -C ₃ 단위가 산화적 축합으로 생성된 화합물	항암 혈액강화 간보호 소염, 항산화	연교, 두충, 산초, 추박, 염지, 우방자, 오가피 등 유관속 식물에만 존재하며 옥질부분에 존재

amorepacific

polyphenols : flavonoids

Flavonoids are a group of chemical compounds naturally found in certain fruits, vegetables, teas, wines, nuts, seeds, and roots. Although not considered vitamins, flavonoids have a number of nutritional functions have been described as biological response modifiers; most act as antioxidants, and some have anti-inflammatory properties. Flavonoids have been shown to prevent or slow the development of some cancers.

Backbone

amorepacific

polyphenols + flavonoids

6 subgroups of flavonoids

- ◆ *Isoflavonoids*: Genistein, didzein, coumestan
- ◆ *Flavanols*: Quercetin, Kaempferol, Myricetin, Isorhamnetin
- ◆ *Flavones*: Luteolin, Apigenin
- ◆ *Flavanones*: Hesperetin, Naringenin, Eriodictyol
- ◆ *Flavan-3-ols*: (+)-Catechin, (+)-Gallocatechin, (-)-Epicatechin, EC, EGCG, Theaflavin, Theaflavin 3-gallate, Theaflavin 3'-gallate,
- ◆ *Anthocyanidins*: Cyanidin, Delphinidin, Malvidin, Pelargonidin, Peonidin,

4. naturals

Aloe

-A healing plant.

-Aloe vera supplies the body with vitamins, minerals and 18 amino acids. It also contains B vitamins 1, 2, and 6, vitamin c, niacinamide.

Gisenosides

-Rejuvenates the skin. Smoothes visible effects of stress fatigue and environmental damage

Soybean

-Boosts collagen production

-Has estrogen-like properties beneficial for aging skin

Grapes

-Contain polyphenols. -10,000 times of Vitamin E

-Strengthens blood vessels

-Gives skin more resistance

amorepacific

NATURALS

Green tea

- Protects from free radicals
- found to be 100x more effective than vitamin C and 25x more effective than vitamin E at protecting cells and their genetic material

Olives

- composed of essential fatty acids it hydrates & softens. Pits can be ground up for an exfoliant
- leaf extract have powerful healing and antioxidant properties

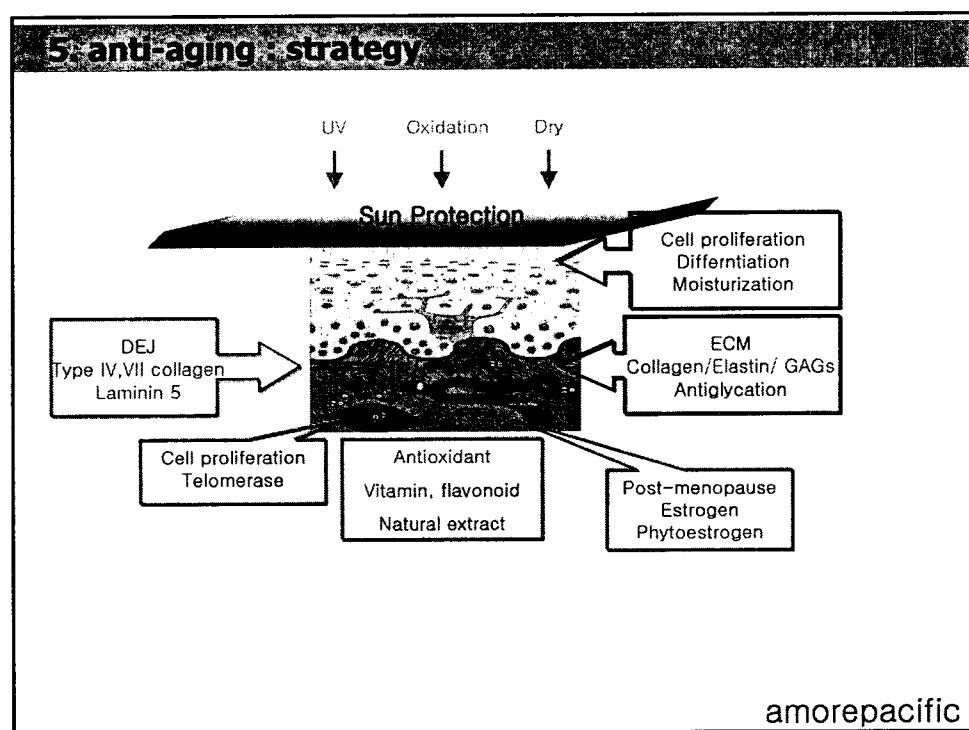

pomegranate

- Have a high concentration of polyphenol
- contains ellagic acid "the most powerful antioxidant known to man"
- prevents pre-mature aging, also boosts products SPF

Chamomile

Anti-stress, sleeping aromatherapy

amorepacific

anti-aging naturals

- Fibroblast 증식: 시호 (saikosaponin b1, b2) – type VII collagen ↑
- UV Protection:
 - 봉선화추출물 (naphtoquinone 류) – 활성산소소거, 멜라닌 억제
 - 에델바이스추출물 (flavonoid, chlorogenic acid) – 단백질 산화 방지
 - 월견초추출물 (USFA, polyphenols) – singlet oxygen 발생 억제
 - 호마추출물 (lignan glycoside) – radical 소거, 지질과산화 억제
- Hyaluronic Acid (HA) Production: Provitamin A – HAS3 발현유도
 - NAG – keratinocyte에서 HA 생성촉진
 - ☞ RA: KC에서 HA 생성 증가, HAS3 발현증가
- Hormone-like Activity: Red clover isoflavone – 피부두께, 주름개선
- 생체관련물질, Vitamins : Vit E, VC-IP, VB6-IP, Ubiquinone-10 – 항산화, radical scavenging, MMPs inhibition, collagen synthesis
- Gelatinase Inhibition : 율금 (curcumin) – DEJ protection
- 그외 구기자, 석류피, 은행잎, 보리수, 사탕수수, 등자꽃, 당근, 브로콜리, 카이네틴, 녹차, 대두, 맥아, 쑥, 흑태, 빙랑자, 올피, 산삼부정근, 어성초, 영지버섯

Key mechanism of de-pigmentation

Materials	Mechanisms	Remarks
Sunscreen agents	Cuts off UV	No effect on Pigmentation except blocking UV
SOD Glutathione	Scavenges free radicals	Obscure effect, not stable
Glucosamine Galactosamine	Inhibits tyrosinase synthesis	No specificity to tyrosinase Potent cytotoxic effect
Arbutin	Inhibits tyrosinase activity	Obscure effect
Hydroquinone	Cytotoxic effect on melanocytes	High toxicity to the skin
Tocopherol Vitamin C der.	Reduce melanin formation	Obscure effect Not stable
Azealic acid	Stimulates melanin elimination through the keratinocytes	Obscure effect
AHA Vitamin A	Enhance cell regeneration, Exfoliate the skin	Obscure effect Skin irritation
Licorice extract	Inhibits tyrosinase Scavenges free radicals	Obscure effect
