 - Young Hwan Kim (Korea Health College)
 - Kyung Jin Min (Keimyung University)
- **Secretary General**
 - Kyung Ho Choi (Seoul National University)
- **Secretary Academic Affairs**
 - Dong Uk Park (Korea National Open University)

Acting Boards

- **Secretary Business Affairs**
 - Shin M- Eui (Seoul Metropolitan Institute of Environmental Health)
- **Secretary Planning**
 - Seung Mucl Lee (Seoul National University)

Editorial Boards

- Editor in chief
PunGyi Kim (Dept. Env. Hlth, Yonsei University)
23 Local members and 7 foreign members
USA (2), Japan (3), VietNam (1),
Taiwan (1)
We want to join Chinese scientists

- Editorial boards
- Air Environments
3 members and Akinori Shimada (Tottori University, Japan)
- Water Environments
2 members and Chon Han Ko (National Taiwan University, Taiwan)
- Waste Environments
3 members
- Noise and Vibration Environments
2 members

- Environmental Toxicology
2 members and Gerald A. LeBlanc (North Carolina State University, USA)
- Environmental Microbiology
2 members
- Environmental Health
3 members and Momoko Chiba (Juntendo University, Japan)

- Environmental Chemistry
4 members and Katsuke Makino (Kyoto University)
- Industrial Environments
2 members and Steven P. Levine (The University of Michigan)

An International Journal Published by the Korean Society of Environmental Health

- Korean Journal of Environmental Health is devoted to a rapid publication of research papers, brief review articles and short communications on the environmental health problem or health effects

Korean Journal of Environmental Health

- Contributions by environmental scientist, environmental hygienist, environmental biologist, environmental engineer and industrial hygienist with the view on public well-being through scientific research are accepted.

- The Korean Journal of Environmental Health, drawing papers from these various disciplines together under a single cover, is devoted to the sharing of information on public health issues on all aspects of environmental research and public health

- Emphasis is given to papers providing an understanding of the scientific mechanism underlying environmental, human and public health
- Korean Journal of Environmental Health is published 5 issues every year
