

Introduction to Korean Society of Environmental Health

PanGyi Kim PhD, DVM, MPH

Department of Occupational & Environmental Health

1. Aim and Scopes

The Korean Society of Environmental Health was founded in 1973 to promote the growth and development of environmental health, to provide the opportunity for association among the scientist studying environmental hygiene and related sciences.

The Society to provide a forum for presentation of research achievements, and to promote the publication of meritorious research.

2. Membership

Membership in the Korean Society of Environmental Health is open to scientists of all nations with an interest in environmental health in general.

All members receive Korean Journal of Environmental Health and newsletters.

3. Academic affairs

International Academic Seminar or Symposium

National Academic Symposium

International and National Academic Journal Publication

International Academic Site Tour and Cooperations

Honorary President

Moon Shik Zong (Professor emeritus, Seoul National University)

President

Rhim Kook Hwan (Korea Health College)

5. Counselors

Sung Bae Park (President of Korean Public Health Association)

Sung Hoi Koo (Dean of Seoul Health College)

Kyu Hwan Ra (School of Public Health, Yonsei University)

Young Hwan Kim (Korea Health College)

6. Vice presidents

1. Ryung Me Ahn (Dongduk Women's University)
2. Dae Yewn Sin (Chosun Univeristy)
3. Young Sik Kim (Miryang National University)
4. Seong Cheon Kim (Kunsan National University)
5. Young Chae Cho (ChungNam National University)
6. Hack Yeop Kim (Chung Wae Pharmaceuticals Central Institute)
7. Do Myung Pack (Seoul National University)
8. Dong Il Chung (National Institute of Environmental Research)
9. Jung Shik Shin (Seoul Metropolitan Institute of Environmental Health)
10. Young Ha Cho (Inje University)
11. Yong Chan Seo (Sangji University)

another 7 vice presidents are working.

Auditors

Young Hwan Kim (Korea Health College)

Kyung Jin Min (Keymyung University)

Secretary General

Kyung Ho Choi (Seoul National Unviersity)

Secretary Academic Affairs

Dong Uk Park (Korea National Open University)

Secretary Business Affairs

Soo Mie Eau (Seoul Metropolitan Institute of Environmental Health) Secretary Planning

Seung Mook Lee (Seoul National Univesity) Editor in chief

PanGyi Kim (Dept. Env. Hlth, Yongin Univeristy)

23 board members and 8 foreign members

USA (2), Japan (3), VietNam (1),

Taiwan (1), China (1)

We want to join over the world scientists

Editorial boards

Health Effect

6 members and Momoko Chiba (Juntendo University, Japan), Ping Liu (Kunmming Medical Univ., China), Xinan Wu (Kunmming Medical Univ., China)

Environmental Policy and Management

5 members and Chon Han Ko (National Taiwan University, Taiwan), Steven P. Levin (Univ. Michigan, USA)

Environmental Media Technology

7 members and Ha Tran Hung (Hanoi Medical Univ. Viet Nam), Keisuke Makino (Kyoto

Univ., Japan)

Environmental and Ecological Effect

4 members and Akinori Shimada (Tottori University, Japan), Gerald A. LeBlanc (North Carolina State Univ. USA)

Environmental Chemistry

4 members and Keisuke Makino (Kyoto Univeristy)

Industrial Environments

2 members and Steven P. Levine (The University of Michigan)

10. Academic Journal

An International Journal Published by the Korean Society of Environmental Health
Korean Journal of Environmental Health is devoted to a rapid publication of research papers, brief review articles and short communications on the environmental health problem or health effects.

Korean Journal of Environmental Health

Contributions by environmental scientist, environmental hygienist, environmental biologist, environmental engineer and industrial hygienist with the view on public well-being through scientific research are accepted.

The Korean Journal of Environmental Health brings papers from these various disciplines together under a single cover, providing a forum for the sharing of information and participation in debate on all aspects of environmental research and public health
Emphasis is given to papers providing an understanding of the scientific mechanism affecting environments, human and public health.

Korean Journal of Environmental Health is published 6 issues every year.
