

## **Biomed Application of Platinum Electrodes**

Saeyoung Ahn<sup>a\*</sup> , Hong Bae Kim<sup>b</sup> , Jae In Jung<sup>c</sup>

<sup>b</sup>SNU, Grad.School of Nat.Sci. , <sup>a\*</sup>Solco Biomedical Inst. , <sup>c</sup>RIST

The platinum electrode has been used in the in-vivo and in-vitro experiments due to its excellent biocompatible aspects. We will present the optimized sputtering conditions and properties for biocompatibility in the saline liquid with the current and voltage varied.
