- Prepared this study due to needs to realize the seriousness of Piracy in shipping industry.

3. ANALYSIS OF ECONOMIC INFLUENCE

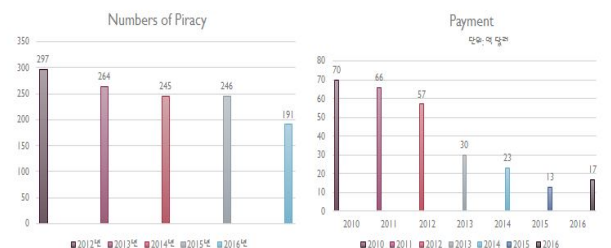

I. DEFINITION OF PIRACY

- Definition of Piracy in UNCLOS
 - Illegal violence, custody or theft of civil or commercial aircraft or persons in civil or commercial areas of civil or commercial aircraft or persons who do not belong to a private or public airplane in a place that does not belong to any country.
 - First, By illegal use of violence, detention or extortion.
 - Second, Must be illegal acts for private purposes.
 - Third, It should be an illegal act in public sea.
 - Defined as any act of instigation or deliberate acts of activities that any act of activity voluntarily participating in the activity (b) or (a) in subsection (c) if they knew it is Pirate ship or aircraft.
 - Fourth, A single private ship must strike at least two ships that attack other civil vessels.
- The purpose of Piracy must be private purposes.
 - The definition of Piracy has a geographical limitation because it is applicable to illegal activities in places that do not have jurisdiction.
 - Because Piracy is assumed to be responsible for a crime committed by a private shipping crew or a passenger or a person, the requirements must be related to at least two ships.
