

# 간단한 의치수리방법에 관한 실험적 연구

대한치과기공학회 총무부장 건화치과

## An experimental study of simplified denture repair technique

(denture repair) (match stick) sticky wax (long burs) (denture base) (plaster of paris) (cast, plaster core) ( 1).

1 a. b. long bur sticky wax c. (denture base) d. plaster of paris (plaster cast)

가

(denture) shrinkage)

sticky wax  
(thermal

**-제작과정(procedure)-**

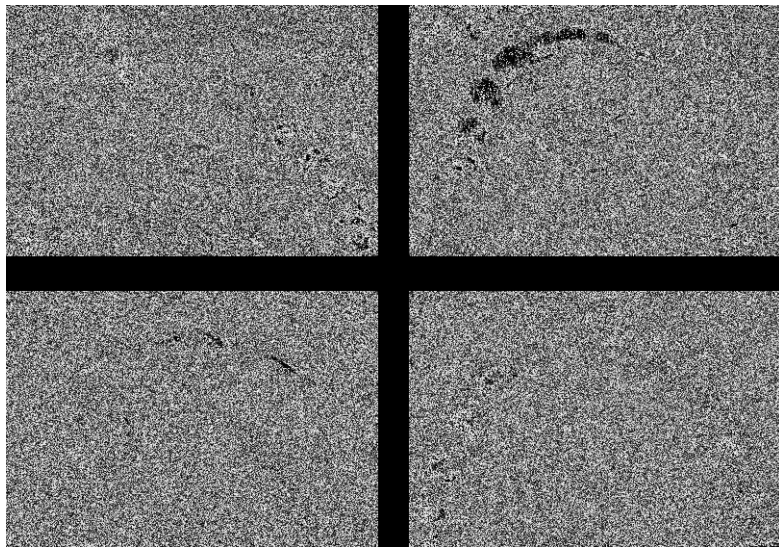

1. (multiple fracture
2. cyanoacrylate (2a).
3. 30
4. 1 (2b).
5. (repair material)가 (denture base) (tissue side) (repair) (utility wax) (2c).

- (denture) (polished surface)  
(fracture site) (acrylic resin)  
V channel  
(2d).
2. (camel hair brush) 가 (auto polymerizing acrylic resin) (monomer, liquid) 가 (auto polymerizing acrylic resin) (polymer, powder) sprinkle
  - (monomer, liquid) (polymer, powder) 가 (monomer, liquid)
  3. 10 (lingual (labial ))

**-파절부위의 channel 형성 및 수리-  
<preparation and repair of the fracture site>**

1. [ (labial (lingual) )

4. (labial) (lingual) (denture teeth) 가 (tunneling)
5. (trimming) (polishing) (2d).

2 a. cyanoacrylate 가 b.  
c. utility wax 가  
d. V-shaped channel (channel) (resin) channel

**-토론(discussion)-**

cyanoacrylate  
 (denture) 가  
 (selfcuring acrylic resin) (repair)  
 channel  
 가 (relining)  
 (rebasing)  
 (imprsssion tray)

(relining)  
 (rebasing) (denture)

**-요약(summary)-**

(denture) (fracture segment)  
 cyanoacrylate 가  
 (stone cast)  
 (denture)가
