

WEC 東京總會 蒐集資料 활용안내

1. 강 연 문

① Keynote Addresses

- Energy and Economic Development, Dr. Chulsu Kim (WTO)
- Future Sustainable Energy Supply, Mr. J. S. Jennings (UK)
- More Efficient Use of Energy, Mr. P. Fresco (USA)
- Energy for a Better Environment, Mr. S. Nasu (Japan)

② Global Energy Addresses

- Managing Energy Systems for the 21st Century,
 - Mr. R. V. Giordano (UK)
 - Mr. Ye Qing (China)
 - Dr. D. Yergin (USA)
- The Geopolitics of Energy in a World in Transition.
 - Mr. A. Giraud (France)
 - Ms. E. Z. Nawakwi (Zambia)
 - Mr. S. Toyoda (Japan)

③ Special Congress Addresses

- Possible Climate Change, Prof. B. Bolin (IPCC)
- Total Energy Industry Quality Control, Mr. S. Kobayashi (Japan)

2. 245 Technical Papers of the 16th WEC Congress

《제목은 에너지협의회보 제35호 (1995. 9월호) 참조》

3. 패널토론 및 WEC 조사보고 세션 자료

- Summaries of Papers in RT & WG
- Global Transport Sector Energy Demand Towards 2020
- Rural Energy in Developing Countries
- Energy Efficiency Improvement Utilising High Technology
- Local and Regional Energy-related Environmental Issues
- Climate Change : Scientific, Technical and Institutional Developments Since 1992
- Global Energy Perspectives to 2050 and Beyond
- Energy, Environment and Climate : Economic Instruments
- New Concept of Nuclear Involvement in Overcoming World Energy Problems
- A World Energy Overview-A Review of the 1992-95 WEC Studies Programme
- The Energy Economy in Central and Eastern Europe in Transition
- Energy Transition in Central and Eastern Europe: Investment Requirements and Financing Possibilities

- Financing Global Energy Perspectives to 2050
- Financing Energy Development : the Challenges and Requirements of Developing Countries
- Energy Efficiency Policies
- Thermal Generating Plant (100MW+) Availability and Unavailability Factors 1995
- Exchange of Availability/Performance Data on Base-load Gas Turbine and Combined Cycle Plant
- Bench Marking Generating Units Demonstrates Comparability of European and North American Data Collection Systems
- Proceedings of Regional Workshop on Options to Enhance Utility Performance and Reliability for Central and Eastern Europe
- Impact of Government and Institutional Policy Changes on the Performance of Thermal Generating Plant
