### ABSTRACT

This paper deals with Korean Staphylinids fauna investigated in Korea by G. Lafer during 1994, 1995 and 1998. 38 species of rove beetles were recognized and among them, four species (*Atheta weisei*, *Bolitobius setiger*, *Lesteva plagiata*, and *Sepedophilus germanus*) are reported herein from Korea for the first time.

**Key words :** Staphylinidae, fauna, new records, Korea

### INTRODUCTION

The fauna of rove beetles in Korea is revealed yet insufficient, about 280 species was recorded hitherto (Cho et Ahn 2001). In this paper, an annotate list of rove beetles (Coleoptera : Staphylinidae) is given collected by G. Sh. Lafer during co-operative coleopterological investigations together with Drs. J.C. Paik and J.K. Park in 1994, 1995 and 1998 at some localities in the south of Korea : 1) Jejudo Island; 2) the Suncheon University, Suncheon, and its vicinities including Mt. Jogyesan and Mt. Baekunsan; 3) vicinities of Daegu including Mt. Palgongsan and Mt. Bohyeonsan; 4) vicinity of Sangju University, Sangju.

Preliminary study including the investigation of male genitalia of almost species and the identification of the beetles were fulfilled by G. Sh. Lafer but then all species were checked and finally identified by Dr. Y.B. Cho.

As a result, 38 species of rove beetles were recognized. Among them, Four species (*Atheta weisei*, *Bolitobius setiger*, *Lesteva plagiata*, and *Sepedophilus germanus*) are reported herein from Korea for the first time and one species is undetermined. Studied specimens are deposited in Natural History

Museum, Hannam University, Korea.

### FAMILY STAPHYLINIDAE

#### Aleocharinae

#### Myrmedoniini

1. *Atheta weisei* Bernhauer, 1907 쫑쌀바수염반날개  
(신칭) (Fig. 1)

*Atheta weisei* Bernhauer, 1907. Verh. zool.-bot. Ges. Wien, 57 : 408 (tyspe-locality: Japan).

*Atheta weisei* : Shibata, 1985 : 319 [Hokkaido, Honshu], Pl. 56, fig. 20.

**Material.** About 100 ex. : Sangju University, Sangju, Gyeongsangbuk-do, at ridge of hill, 200-250 m alt., forest of mainly *Pinus thunbergii*, *Alnus* spp. and *Querus* spp. (several species), in lamellate mushrooms, 1. VIII 1998, G. Sh. Lafer leg. 1 ex. : the same place, in lamellate mushrooms, 9. VIII 1998, G. Sh. Lafer leg.

**Distribution.** Korea, Japan (Hokkaido, Honshu).

**Note.** This species is reported herein from the first time in

Korea. Up to now from Korea, six species of the genus *Athetis* were reported (Cho and Ahn 2001) : *A. atramentaria* (Gyllenhal), *A. japonica* Bernhauer, *A. koreana* Bernhauer, *A. transfuga* (Sharp), *A. Sordida* Marsham and *A. yokkaichiana* Bernhauer.

### Aleocharini

#### 2. *Aleochara curtula* (Goeze, 1777) 홍딱지바수염반날개

*Aleochara curtula* : Kim et al., 1994 : 144. Ahn et al., 2000 : 246. Cho et Ahn, 2001, 30 [Korea].

**Material.** 4 ex. : Mt. Palgongsan (20 km NE of Daegu), 23. VII 1994, G. Sh. Lafer leg.

**Distribution.** Holarctic species. In the Far East it is known from Amyrskaya oblast', Khabarovskij Kray, Primorskij Kray; Japan (Hokkaido, Honshu, Shikoku), Korea, Japan, Europe, North America.

### Omaliiinae

#### Omaliiini

#### 3. *Lesteva plagiata* Sharp, 1889 좀가슴네눈반날개 (신칭) (Fig. 3)

*Lesteva plagiata* Sharp, 1889. Annl. Mag. nat. Hist., (6), 3 : 472 (orig. descr.). Watanabe, 1990 : 155 [Japan].

**Material.** 1 ♀ : Mt. Hallasan, 900 m alt., Jejudo Is., 17. VII 1994, G. Sh. Lafer leg.

**Distribution.** Korea\*, Japan (Honshu, Kyushu).

**Notes.** This genus and species are reported herein from Korea for the first time.

### Oxytelinae

#### Oxytelini

#### 4. *Thinodromus sericatus* (Sharp, 1889) 굽은줄반날개

*Thinodromus sericatus* : Watanabe, 1985 : 273 [Japan], Pl. 48, fig. 1. Kim et al., 1994 : 140. Cho and Ahn, 2001 : 43 [Korea].

*Trogophloeus (Thinodromus) sericatus* : Tikhomirova, 1973 : 144 [Japan].

**Material.** 1 ♂ : Mt. Hallasan, 900 m alt., Jejudo Is., 17. VII 1994, G. Sh. Lafer leg.

**Distribution.** Korea, Japan (Honshu, Shikoku).

### 5. *Platysthetus operosus* Sharp, 1874 강변반날개

*Platysthetus operosus* : Watanabe, 1985 : 273 [Japan], Pl. 48, fig. 7. Kim et al., 1994 : 140. Cho and Ahn, 2001 : 43 [Korea].

*Platysthetus (Platysthetus) operosus* : Tikhomirova, 1973 : 146 [Japan].

**Material.** 1 ♂ : Mt. Hanlasan, 900 m alt., Jejudo Is., 17. VII 1994, G. Sh. Lafer leg. 1 ex. : Donnaeko, 300 m alt., Jejudo Is., 17. VII 1994, G. Sh. Lafer leg. 1 ex. : Biostation of the Sangju University, Sangju, Gyeongsangbuk-do, at foot of a hill, on wet soil at mulberry plantation, 9. VIII 1998, G. Sh. Lafer leg.

**Distribution.** Korea, Japan (Hokkaido, Honshu).

### Paederinae

#### Pinophilini

#### 6. *Pinophilus lewisi* Sharp, 1874 수종다리반날개

*Pinophilus lewisi* : Jacobson, 1909 : 485 [Japan]. Adachi, 1955 : 13, 1957 : 190. Shibata, 1977 : 17. Watanabe, 1985 : 281 [Honshu, Kyushu, Jaku; Taiwan], Pl. 49, fig. 24. Cho, 2000b : 66-67 [Korea, Japan, Taiwan].

**Material.** 1 ♂ : Suncheon University, at light, 10. VII 1998, G. Sh. Lafer leg.

**Distribution.** Korea, Japan (Honshu, Kyushu, Jaku), Taiwan.

**Notes.** This species was identified by the data of Watanabe, 1985 and Cho, 2000b. Two species, *Pinophilus lewisi* Sharp and *P. rufipennis* are known from Korea up to now (Cho 2000b).

### Paederini

#### 7. *Astenus porosus* (Sharp, 1889) 검은곰보개미반날개

*Sunius porosus* Sharp, 1889 : 322 (orig. descr.).

*Astenus porosus* : Jacobson, 1909 : 489 [Japan]. Bernhauer et Schubert, 1912 : 218. Adachi, 1955 : 19, 1957 : 12. Shibata, 1977 : 36. Watanabe, 1985 : 282 [Honshu], Pl. 49, fig. 32. Cho, 2000a : 121, 123-124 [Korea : Central, South, Chejudo].

**Material.** 1 ex. : Biostation of the Sangju University, Sangju, Gyeongsangbuk-do, bank of river, 3 m from water, on clay soil among thick and tall grasses and Salix bushes, 9. VIII 1998, G. Sh. Lafer leg.

**Distribution.** Korea, Japan (Honshu).

*Philonthus (Philonthus) numatai* : Shibata, 1983 : 111 [Japan].

**Material.** 1♂ : Suncheon University, Jeonlanam-do, 7. VIII 1994, G. Sh. Lafer.

**Distribution.** Korea, Japan, China.

### 21. *Gabrius unzennensis* (Bernhauer, 1939)

봉흘쪽좀반날개

*Philonthus (Gabrius) unzennensis* Bernhauer, 1939 : 153 (orig. descr.).

*Philonthus (Gabrius) unzennensis* : Adachi, 1957 : 183 [Japan].

*Gabrius unzennensis* : Cho et Lee, 1997 : 272 [Korea].

**Material.** 1♂ : Mt. Hallasan, 900 m alt., 17. VII 1994, G. Sh. Lafer leg.

**Distribution.** Korea, Japan (Honshu, Kyushu), China.

**Notes.** Up to now 4 species of this genus from Korea are reported by Cho & Ahn (2001).

## Staphylinini

### 22. *Platydracus brevicornis* (Motschulsky, 1860)

홍딱지반날개

*Staphylinus brevicornis* Motschulsky, 1860 : 11 (orig. descr.).

*Staphylinus paganus* Sharp, 1874 : 30. Shibata, 1984 : 85 [Japan].

*Platydracus paganus* : Adachi, 1957 : 181 [Japan]. Kim et al., 1994 : 143 [Korea]

*Platydracus brevicornis* : Cho et Ahn, 2001 : 81 [Korea].

**Material.** 1♂, 1♀ : Mt. Bibong, near ridge of Suncheon

University, Jeonlanam-do, mixed forest, in bait trap, 5. VII 1994, G. Sh. Lafer.

**Distribution.** Korea, Russia, Japan, China.

### 23. *Platydracus* sp.

**Material.** 2 ex. : Mt. Bohyeonsan, Gyeongsangbuk-do, broad-leaved forest at slope, in traps, 25. VII 1994, G. Sh. Lafer leg.

### 24. *Ocyurus weisei* Harold, 1877 노랑털검정반날개

*Ocyurus weisei* : Shibata, 1985 : 302 [Hokkaido, Honshu, Shikoku, Kyushu, Tsushima], Pl. 53, fig. 7. Cho et Ahn, 2001 : 72 [Korea].

*Ocyurus (Xanthocypus) weisei* : Tikhomirova, 1973 : 186 [Japan]. Kim et al., 1994 : 143 [Korea].

**Material.** 1 ex. : Mt. Hallasan, Jejudo, 900 m, in a gutter along road, 17. VII 1994, G. Lafer leg.

**Distribution.** Korea, Japan (throughout), China.

### 25. *Ontholestes gracilis* (Sharp, 1874) 녹슬은반날개

*Leistotrophus gracilis* Sharp, 1874 : 28 (orig. descr.).

*Ontholestes gracilis* : Jacobson, 1909 : 514 [Japan, ?Yuzhno-Ussur. Reg.]. Kirscheblat, 1936 : 522 [Yuzhno-Ussuriyskij Kray, Japan], 554. Kryzhanovskij et al., 1973 : 150 [Primorskij Kray, Japan]. Tikhomirova, 1973 : 187. Shibata, 1985 : Hokkaido, Honshu, Sado, Oki, Shikoku, Kyushu], Pl. 53, fig. 9. Kim et al., 1994 : 143. Cho et Ahn, 2001 : 73 [Korea].

**Material.** 1♀ : Mt. Jogyesan, vicinity of Songgwangsa Temple, Jeonlanam-do, edges of forest, 9. VII 1995, G. Sh. Lafer.

**Distribution.** Korea, Russia (Primorskij Kray), Japan (throughout), China.

**Notes.** This species was identified with Kirscheblat's key and by comparing with specimens in Filatova's collection. Five species are known from Primorskij Kray, one species from Korea and three species from Japan (Kirscheblat 1936, Jacobson 1909, Tikhomirova 1973).

### 26. *Creophilus maxillosus* (Linnaeus, 1758) 왕반날개

*Staphylinus maxillosus* Linnaeus, 1758 : 421 (orig. descr.).

Type loc. : Europe.

*Creophilus maxillosus* : Jacobson, 1909 : 514, Pl. 14, fig. 10. Kryzhanovskij et al., 1973 : 150 [Primorskij Kray, Holarctic,

South Asia]. Tikhomirova, 1973 : 188 [Holarctic, South Asia]. Shibata, 1985 : 304 [Hokkaido, Honshu, Shikoku, Kyushu, Jaku], Pl. 53, fig. 19. Naomi, 1988 : 129-131 [Hokkaido, Honshu, Shikoku, Kyushu, Amami Is., Ishigaki Is., Iriomote Is., Yonagumi Is.; Palearctic Reg.]. Kim et al., 1994 : 142. Cho et Ahn, 2001 : 66 [Korea].

**Material.** 1♂ : Undong Village, 7 km S of Mt. Baekunsan, Jeonlanam-do, bank of river, under stones, 8. VII 1995, G. Sh. Lafer leg.

**Distribution.** Holarctic Region, South Asia. In the Far East this species is known from Amurskaya oblast', Khabarovskij Kray, Primorskij Kray (ssp. *ciliaris* Stephens), Kamchatka, Kuril Islands (ssp. *arcticus* Er.), Korea, Japan (throughout) and China.

**Notes.** Monotypic genus (Jacobson 1909 : 514) containing a single species *Creophilus maxillosus* (Linnaeus 1758) with some subspecies.

### 27. *Algon grandicollis* Sharp, 1874 가슴반날개

*Algon grandicollis* Sharp, 1874 : 23 (orig. descr.).

*Algon grandicollis* : Jacobson, 1909 : 515 [Japan]. Tikhomirova, 1973 : 188 [China, Japan]. Naomi, 1983 : 589-591 [Hokkaido, Honshu, Shikoku, Kyushu; China]. Shibata, 1985 : 307 [Hokkaido, Honshu, Sado, Shikoku, Kyushu, Tsushima, Jaku; China], Pl. 53, fig. 7. Kim et al., 1994 : 143. Cho et Ahn, 2001 : 65 [Korea].

**Material.** 1♂ : Suncheon University, Jeonlanam-do, open slope of Mt. Bibong, 50 m alt., in drain gutter, 5. VII 1998, G. Lafer leg.

**Distribution.** Korea, Russia (Kuril Islands (Kunashir)). Japan (throughout), China.

### Steninae

#### 28. *Stenus cicindeloides* (Schaller, 1883)

북쪽알락딱부리반날개

*Stenus cicindeloides* : Kryzhanovskij et al., 1973 : 147 [Primorskij Kray, Palearctic]. Puthz, 1979 : 122 [North Korea : Tesson, 35 km SW Pyeongyang]. Watanabe, 1985 : 279 [Honshu, Shikoku, Kyushu; China etc.], Pl. 49, fig. 14.

*Stenus (Hypostenus) cicindeloides* : Naomi, 1990 : 201 [Key]. Kim et al., 1994 : 140. Cho et Ahn, 2001 : 86 [Korea].

**Material.** 2♀ : Biostation of the Sangju University, Sangju, Gyeongsangbuk-do, boggy bank of river, 3 m from water, on

clay soil among thick and tall grasses and *Salix* bushes, 9. VIII 1998, G. Sh. Lafer leg.

**Distribution.** Palaearctic and Oriental region. In the Far East this species is known from Primorskij Kray (Russia), Korea, Japan (Honshu, Shikoku, Kyushu), China.

**Notes.** About 90 species of this genus are known from Russian Far East and about 150 species from Japan but only 27 species are reported up to now from Korea (Kim *et al.* 1994, Insect of Quelpart Island 1995).

### 29. *Stenus melanarius* Stephens, 1832 좀딱부리반날개

*Stenus melanarius* ssp. *verecundus* : Kryzhanovskij *et al.*, 1973 : 148 [Primorskij Kray, Japan, Palearctic].

*Stenus melanarius* : Watanabe, 1985 : 279 [Honshu], Pl. 49, fig. 12.

*Stenus (Nestus) melanarius* : Naomi, 1989 : 41 [Key], fig 1E [aedeagus]. Kim *et al.*, 1994 : 140 [Korea].

**Material.** 1♀ : Biostation of the Sangju University, Sangju, Gyeongsangbuk-do, boggy bank of river, 3 m from water, on clay soil among thick and tall grasses and *Salix* bushes, 1. VIII 1998, G. Sh. Lafer leg.

**Distribution.** Palaearctic Region. In the Far East this species is represented by ssp. *verecundus* Sharp, 1874 and is known from Primorskij Kray (Russia), Japan (Honshu, Shikoku, Kyushu), Korea, China.

### 30. *Stenus puberulus* Sharp, 1874 자란딱부리반날개

*Stenus puberulus* Sharp, 1874 : 83 (orig. descr.).

*Stenus (Nestus) puberulus* : Jacobson, 1908 [Japan]. Naomi, 1989 : 41 [Key], fig. 1D [aedeagus]. Kim *et al.*, 1994 : 140 [Korea].

**Material.** 1♂ : Biostation of the Sangju University, Sangju, Gyeongsangbuk-do, boggy bank of river, 3 m from water, on clay soil among thick and tall grasses and *Salix* bushes, 1. VIII 1998, G. Sh. Lafer leg.

**Distribution.** Korea, Russia (Primorskij Kray), Japan (Hokkaido, Honshu, Shikoku, Kyushu), China.

### 31. *Stenus distans* Sharp, 1889 검은무릎딱부리반날개

*Stenus distans* Sharp, 1889 : 327 (orig. descr.).

*Stenus (Stenus) distans* : Jacobson, 1908 : 480 [Japan]. Puthz, 1974 : 437, fig. 2 (aedeagus). Watanabe, 1985 : 278-279 [Honshu, Shikoku, Kyushu], Pl. 49, fig. 10. Naomi, 1988 : 66 [key]. Kim *et al.*, 1994 : 141 [Korea].

*Stenus (Stenus) ? lentus* Sharp : Ryvkin, 1989 : 9 [manuscript];

Japan, Korea, China].

**Material.** 1♂, 1♀ : Biostation of the Sangju University, Sangju, Gyeongsangbuk-do, boggy bank of river, 3 m from water, on clay soil among thick and tall grasses and *Salix* bushes, 9. VIII 1998, G. Sh. Lafer leg.

**Distribution.** Korea, Russia (Khabarovskij Kray, Primorskij Kray), Japan (Honshu, Shikoku, Kyushu).

### 32. *Stenus pilosiventris* Bernhauer, 1915

털때딱부리반날개

*Stenus (Tesnus) pilosiventris* : Puthz, 1979 : 121 [North Korea]. Kim *et al.*, 1994 : 141 [Korea].

**Material.** 1 ex. : Biostation of the Sangju University, Sangju, Gyeongsangbuk-do, South Korea, boggy bank of river, 3 m from water, on clay soil among thick and tall grasses and *Salix* bushes, 1. VIII 1998, G. Sh. Lafer leg. 1 ex. : the same place, 9. VIII 1998, G. Sh. Lafer leg.

**Distribution.** Korea, Russia (Khabarovskij Kray, Primorskij Kray), North-Eastern China.

## Tachyporinae

### Bolitobiini

### 33. *Bolitobius setiger* (Sharp, 1874) 어깨무늬뾰족반날개

(신칭) (Fig. 2)

*Bryocaris setigera* : Jacobson, 1909 : 523 [Japan]. Tikhomirova, 1973 : 149 [Japan].

*Bolitobius setiger* : Shibata, 1985 : 312 [Hokkaido, Honshu, Kyushu], Pl. 55, fig. 13.

**Material.** 1 ex. : Sangju University, Sangju, Gyeongsangbuk-do, at ridge of hill, forest of mainly *Pinus thunbergii*, *Alnus* spp. and *Quercus* spp. (several species), in lamellate mushrooms, 9. VIII 1998, G. Sh. Lafer leg.

**Distribution.** Korea, Japan (Hokkaido, Honshu, Kyushu), China.

**Notes.** This genus and species are reported herein from Korea for the first time.

### 34. *Lordithon simplex* (Sharp, 1888) 버섯반날개

*Lordithon simplex* : Adachi, 1957 : 178 [Japan]. Kim *et al.*, 1994 : 143. Cho and Ahn, 2001 : 92 [Korea].

**Material.** 2 ex. : Sangju University, Sangju, Gyeongsangbuk-do, at ridge of hill, forest of mainly *Pinus Thunbergii*,

*Alnus* spp. and *Querus* ssp. (several species), in lamellate mushrooms, 9. VIII 1998, G. Sh. Lafer leg.

**Distribution.** Korea, Japan (Honshu, Kyushu). China.

**Notes.** Two species of this genus, *L. bicolor* Grav. and *L. simplex* (Sharp) were recorded hitherto from Korea.

### Tachyporini

#### 35. *Sepedophilus germanus* (Sharp, 1874)

갈색알뾰족반날개 (신칭) (Fig. 4)

*Sepedophilus germanus* Sharp, 1874 : 17 (orig. descr.).

*Conosomus germanus* : Jacobson, 1909 : 524 [Japan].

*Conosoma germanus* : Kryzhanovskij et al., 1973 : 147 [Primorskij Kray, Japan]. Tikhomirova, 1973 : 149 [Far East, Japan].

*Sepedophilus germanus* : Shibata, 1985 : 313 [Hokkaido, Honshu, Kyushu, Tsushima, Jaku], Pl. 55, fig. 20.

**Material.** 1 ex. : Mt. Bohyeonsan, Gyeongsangbuk-do, 25. VII 1994, G. Sh. Lafer leg.

**Distribution.** Korea\*, Primorskij Kray, Japan (almost throughout).

**Notes.** This species is reported herein from Korea for the first time. This genus contains about 330 species; 10 species are known from Primorskij Kray, about 20 species from Japan and 8 species were reported hitherto from Korea (Kim et Ahn 2000a).

#### 36. *Sepedophilus varicornis* (Sharp, 1888)

붉은어깨알뾰족반날개

*Conosoma varicorne* : Watanabe, 1961 : 354 [Japan].

*Sepedophilus varicornis* : Kim et Ahn, 2000a : 261. Cho et Ahn, 2001 : 94 [Korea].

**Material.** 1 ex. : Mt. Hanlasan, 1250 m alt., Jejudo Is., along mountain stream, 16. VII 1994, G. Sh. Lafer leg.

**Distribution.** Korea, Japan, China.

#### 37. *Tachinus nigriceps* Sharp, 1888 고마뾰족반날개

*Tachinus nigriceps* Sharp, 1888 : 384 (orig. descr.).

*Tachinus nigriceps* : Jacobson, 1909 : 526 [Japan]. Shibata, 1985 : 314 [Hokkaido, Honshu, Kyushu, Tsushima, Jaku], Pl. 55, fig. 35. Kim et Ahn, 2000b : 127. Cho et Ahn, 2001 : 95 [Korea].

*Tachinus nigrinus* (? sic) : Tikhomirova, 1973 : 150 [Japan].

**Material.** 1 ♂ : Mt. Jogyesan, vicinity of Songgwangsa

Temple, Jeonlanam-do, edges of forest, 9. VII 1994, G. Sh. Lafer. 1 ex. : Mt. Jogyesan, vicinity of Songgwangsa Temple, Jeonlanam-do, 10. VII 1994, G. Sh. Lafer.

**Distribution.** Korea, Japan (Hokkaido, Honshu, Kyushu, Tsushima, Jaku).

**Notes.** Twelve species was reported earlier from Russian Far East, 14 species from Japan and 5 species from Korea by Kim et Ahn, 2000b.

### Deropsini

#### 38. *Derops coreanus* (Watanabe, 1969) 글수염반날개

*Derops coreanus* Watanabe, 1969 : 627 (orig. descr.).

*Derops coreanus* : Kim et al., 1994 : 139. Cho et Ahn, 2001 : 92 [Korea].

**Material.** 1 ex. : Mt. Palgongsan, 23. VII 1994, G. Sh. Lafer leg. 1 ex. : Mt. Bohyeonsan, 25. VII 1994, G. Lafer leg.

**Distribution.** Korea, Japan, China.

**Notes.** Four species are known from Far East : two in Japan, one in Korea and one in Primorskij Kray.

## 적 요

G. Lafer에 의해 조사된 한국산 반날개류에 대한 조사 내용을 보고한다. 조사된 반날개류는 38종이 동정되었고, 이들 중 4종이 (*Atheta weisei*, *Bolitobius setiger*, *Lesteva plagiata*, and *Sepedophilus germanus*) 한국산 미기록종으로 밝혀졌다.
