

## KSEA Message to SEWC 2002

지난 10월 9일 부터 10월 12일까지 일본 Yokohama에서 열린 SEWC2002 대회 Opening ceremony에서 SEWC2002 대회장인 Dr. Yano의 개회사에 이어 각 이사 단체 (Board Member)의 대표가 보내온 축하메시지가 연단 배면 대형 스크린에 차례로 비추어 졌는데 다음은 당일 방영된 우리회 유병억 회장의 축하 메시지 내용이다.

# KSEA

## The Korean Structural Engineers Association

KSEA(The Korean Structural Engineers Association) consists of more than 500 Korean professional engineers specialized in design, construction, supervision, appraisal and maintenance of all types of building structures.

President Mr. Yoo Byoung Eok

KSEA expresses congratulations on SEWC2002 and is willing to share our technology and experience with all the participants in SEWC2002. KSEA also expects SEWC2002 to be an opportunity to communicate with engineers from different countries and various cultural heritage. Through exchange and co-operation, our practice and knowledge will be enhanced and we will have more chances to contribute to our society.

### Welcome Message

Katsumi Yano  
Chairman, SEWC2002

Structural Engineers World Congress(SEWC) is the conference of the professional practice and technical matters. SEWC2002 aims at organizing more fruitful conference of professional practice.

Professional Practice can only be achieved upon the mutual understanding and trust between the engineers and the users or the society. From this point of view, beside research presentations we organize the following features in this congress.

1. Overall Information Exchange: As well as having more keynote speeches, we will have overall summaries of the research papers on five main topics. As for the destruction of WTC, we will discuss the matter not only from the point of structure but from broader points of view. Technical tours have increased.
2. Information for the public: As well as overall summaries, we will have an exhibition to show the general public the various aspects of structural engineers and different images of structural culture all over the world. The theme of the exhibition is "From safety to desired Security". We will have film to help people understand the different cultural occasions relating to structural construction among many countries.

I would like to extend my sincere appreciation for the Board Member Associations.

Cooperation Organizations and Supporting Companies who understand the spirit of the congress and support it.
