The Status of Korea Pallet Standardization

(사)한국파렛트컨테이너협회 전무이사 정 태 원

본 원고는 지난 2013년 7월 17일 일본 동경 'Mielparque Tokyo'에서 열린 2013 제8회 APSF(Asia Pallet System Federation) 총회 발표자료로 각국의 파렛트 및 리터너블 컨테이너 조사 내용 발표 중'한국의 파렛트 표준화 현황'을 (사)한국파렛트컨테이너협회 정태원 전무이사가 발표한 원고입니다.

- 편집자 주 -

1. Flat Pallet Production by MATERIAL

(2011 Year / Korea)

Material of Pallets	Amount of Production	Sales in Korean Cur rency)
WOOD	15,987,000 Ea	296,271 MIL WON
METAL	73,000 Ea	4,334 MIL WON
PLASTIC	13,203,000 Ea	513,346 MIL WON
TOTAL	29,263,000 Ea	813,951 MIL WON (722 Million Dollar)

2. The Production Volume of Flat Pallets by SIZE

(2011 Year / Korea)

SIZEES OF PALLETS	PRODUCTION	RATIO
T-11(1100 X 1100mm)	10,769,000 Ea	36.8 %
T-12 (1200 X1000mm)	4,484,000 Ea	15.3 %
Sub TOTAL(ASIA TANDARED)	15,253,000 Ea	52.1 %
OTHERS	14,010,000 Ea	47.9 %
TOTAL	29,263,000 Ea	100 %

3. Pallet Quantity being used in Pool System

* This figure is estimated.

(2011 Year / Korea)

This figure is estimated.		(ZOII TCai / Norca)			
Materials of Pool Pallets	Size	Amount of Possession	Ratio		
WOOD Pallet	1100 x 1100 mm	680,000 Ea			
	1200 x 1000 mm	420,000 Ea			
	Others	60,000 Ea			
	Sub Total	1,160,000 Ea	10.1 %		
PLASTIC Pallet	1100 x 1100 mm	7,350,000 Ea			
	1200 x 1000 mm	1,330,000 Ea			
	Others	1,570,000 Ea			
	Sub Total	10,250,000 Ea	89.8 %		
BOX Pallet	-	352,000 Ea	3.1 %		
Total(for Pallet)	其中·李 中·李 李	11,410,000 Ea	100 %		

* Returnable Plastic Container Total

19,100,000 Ea

* Pooling Pallets & Containers' Quantity Total

30,510,000 Ea

4. The type of Usage for Pallets and Containers

(2011 Year / Korea)

Type of usage	Flat Pallet Ratio	Plastic container Ratio
Storage & handling within the site-Captive	26.4 %	10.5 %
One-way use of domestic transport	49.4 %	72.5 %
Returnable use of domestic transport	24.2 %	17.0 %
Total	100 %	100 %

5. The Usage Volume of Pallets by Size

(2011 Year / Korea)

Type of usage	T-11	T-12	Others in KS	Non KS	Total
Total	35.3 %	14.4%	7.1 %	43.2 %	100

* Asia Standard (T-11 + T-12 = 49.7 %)

- 6. The process of development by stages in Flat Pallets Standardization of Korea
- Stage 1: Government policy and Promotion for thru-transit pallets for materials handling in Korea
 - Adoption of T-11 type of pallet (1992.12.30)
 - From 1992 to present (progressed steadily)
- > Stage 2: Participating in ISO development
 - 1) Revision of ISO 6780(1995-2003.8)
 - The revision has completed in Aug. 2003
 - T-11 has been included in ISO 6780
 - Promotion of Asia Pallet Standardization(2003~pre sent)
 - Holding the Asia Standardization Conference in 2003
 - ✓ Achieving consensus about the needs of Asia Pallet Standardization
 - Achieving consensus about establishment of organization for Asia Pallet Standardization
 - 3) As a result of above activities, APSF foundation g eneral meeting in 2006
 - Establishing standard for Flat pallets for interconti nental materials handling in Asia
- Stage 3: Human resources training program for APSF members by operating;
 - Asia Unit Load School (Asian unit load training programs and conferences, etc.) (2007 - present)

2007	2008	2009	2010	2011	2012
Thailand	Vietnam	Malaysia	Indonesia	India	China

There will be constant effort for the cooperation with members for ONE ASIA, ONE PALLET SYSTEM.
