※ In our paper, there was a typographic error in (36) which should be corrected as follows:

$$C_{km}(t) = j^{k-m} \sqrt{\frac{k!}{2^{k-m} m!}} \left(\frac{-at}{2}\right)^{m-k} L_k^{m-k}(a^2 t^2 / 2) \exp(-a^2 t^2 / 4) \quad (36)$$
