J Korean Assoc Oral Maxillofac Surg 2018;44:249-250. <https://doi.org/10.5125/jkaoms.2018.44.6.249>

This correction is being published to correct mistakenly grouping the organization Smile Train under the umbrella of non-governmental, mission-based organizations. In fact, Smile Train empowers local medical professionals to provide care within their own communities in response to the limitations of the mission model.

The author apologizes for any inconvenience this may have caused.

Before correction

Fortunately, humanitarian surgical missions for patients with CLP in developing countries have a long history. Non-governmental, mission-based organizations such as Smile Train, Operation Smile, and Interplast……
