Journal of Species Research 11(3):202-207, 2022. DOI:10.12651/JSR.2022.11.3.202

In the “Materials and Methods” and “Materials examined” sections, the depository of voucher specimens should be corrected as following:

MATERIALS AND METHODS

Specimens examined were obtained from field collecting of larvae in Korea and four insect collections:

Department of Science Education, Gongju National University of Education, Korea (GNUE);
Department of Environmental Education, Mokpo National University, Korea (MPNU);
National Institute of Biological Resources, Korea (NIBR);
Tsukuba Research Departments, National Museum of Nature and Science, Japan (NMNS).

Litobrenthia japonica (Issiki, 1930)

Materials examined. [Korea] 1♂, Jeollanam Prov., Wando-gun, Is. Bogildo, Bogil-myeon, Buhwang-ri (34°07'39.7"N 126°31'13.3"E), 31 August 2017, leg. J.-C. Sohn, genitalia slide no. SJC-1308, MPNU; 1♀, Jeollanam Prov., Wando-gun, Is. Wando, Wando-eup, Jeongdori (34°17'53.1"N 126°42'46.8"E), 24 August 2017, leg. J.-C. Sohn, genitalia slide no. SJC-1326, MPNU.
